

RESULTS INNOVATION LAB 2018 FACT SHEET

A moonshot goal to ensure 20,000 vulnerable youth are nurtured and on a successful pathway to adulthood by 2024

- 100 Lutheran Services in America organizations serve over 40,000 children, youth and families every day in 33 states across the country.
- In 2017, Lutheran Services in America led a partnership with The Annie E. Casey Foundation and 25 emerging leaders from 10 member organizations that achieved tangible improvement in the lives of 4,000 children, youth and families. The results included:
 - Increased high school graduation rates for foster youth in Colorado;
 - Over 700 minority youth in South Dakota avoided re-arrest; and
 - Improved outcomes for minority youth exiting homeless youth programs in Minnesota.
- Building on the Results Innovation Lab's early success, Lutheran Services in America formally launched the first year of work towards a multi-year effort to achieve a moonshot goal.

The Lab seeks a diversity of stakeholders to join us by adding their voice, their knowledge and their resources to make the moonshot a reality.
